+6281295929282 | raffifahrezi95@gmail.com | www.linkedin.com/in/muhammadraffifahrezi | <https://bit.ly/portofolioezi>

Jakarta Raya, Indonesia

A motivated Information Technology graduate from Universitas Brawijaya with a strong interest in user-centered design and digital product development. Experienced in designing intuitive and responsive user interfaces using Figma while applying fundamental UI/UX principles through user research and usability considerations. Possesses working knowledge of web development technologies including HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, Filament, and responsive web design, along with basic experience in SQL Server database management. Familiar with agile development practices, version control systems, and collaborative team environments, with strong analytical thinking and problem-solving skills to support the development of efficient and user-friendly digital solutions.

Work Experiences

Kementerian Perlindungan Pekerja Migran Indonesia - Jakarta, Indonesia

Nov 2025 - May 2026

Data and Information Management (MagangHub Batch 2)

- Prepared and processed data and information related to the Human Resource Development system at PPSDM, supporting administrative, archive document and data management activities within KP2MI/BP2MI.
- Managed and organized operational data using Excel & Spreadsheet, including compiling and archiving 200+ SPM activity documents, while maintaining structured data recaps to support reporting and internal documentation.
- Assisted in translating application documentation such as manuals and Business Requirement Documents (BRD) into simplified visual materials (posters/guides) for new users, while also providing basic IT support for software-related issues within the office environment.

PT. Petrokimia Gresik - Gresik, Indonesia

Sep 2024 - Jan 2025

Software Engineering (Intern)

- Authored comprehensive User Manuals and Business Requirement Documents (BRDs), ensuring clear and structured communication among development teams and key stakeholders, which reduced feedback and rework cycles by 20-25%.
- Designed and delivered UI/UX for an industrial website, enhancing usability and boosting efficiency for 10-15 internal stakeholder groups, improving task completion rates by 25-30%.
- Led and developed an Asset Planning System website, taking ownership of both architectural design and hands-on coding using Laravel (PHP) and SQL Server. Successfully reduced manual tracking time by 35-40% and enabled effective management of 200+ assets across the organization.

BISA.AI Academy - Jakarta, Indonesia

Jan 2024 - Jun 2024

UI/UX Designer & Researcher (MSIB Batch 6)

- Certified as an International UI/UX Designer Associate, demonstrating expertise in usability, interaction design, and user research methodologies.
- Executed business planning initiatives by leveraging Design Thinking and Value Proposition frameworks, generating 3-5 innovative product concepts with strong stakeholder alignment.
- Conceptualized and designed an E-Commerce platform, achieving 20-30% improvement in user journey efficiency and boosting customer satisfaction scores.

Education Level

Universitas Brawijaya - Malang, Indonesia

Jul 2022 - Jul 2025

Associate of Information Technology, 3.90/4.00

- Earned BNSP Certification as a Junior Web Developer, demonstrating foundational knowledge in web development technologies and development practices.
- Designed UI/UX for an E-Complaint System website for the Faculty of Vocational Studies and a Shoes E-Commerce platform, improving usability and navigation efficiency while reducing average user reporting time by 20-25%.
- Led an 8-member cross-functional team as Project Manager for the E-Complaint System development and the "Grow Up With TI" initiative, collaborating with HMPSTI to deliver digital solutions for 3 SMEs in Malang and increasing brand visibility by 15-20%.

Organizational Experience

IEEE UB Student Branch - Malang, Indonesia

Nov 2023 - Nov 2024

Staff Public Relation

- Collaborated with multiple departments to plan and execute promotional campaigns, workshops, and seminars, aligning objectives and resources effectively.
- Facilitated strategic partnerships with external organizations and stakeholders, expanding the branch's professional network and creating opportunities for future collaboration.
- Managed stakeholder relations and communications, maintaining effective engagement with public, media, faculty, community groups, and other key parties, which strengthened organizational reputation and outreach.

HMPSTI Vokasi UB - Malang, Indonesia

Sep 2022 - Sep 2024

- Staff Ahli
- Appointed Project Manager for GROW UP WITH TI 2023, overseeing the development of a website-based information system for local SMEs (UMKM), from requirements gathering to deployment.
 - Led a cross-functional team in the planning and execution of IT CHARITY 2023, an initiative delivering basic English language training to 50+ elementary school students, enhancing digital literacy and community impact.
 - Directed and contributed to the planning, organization, and successful execution of multiple advocacy and community social work programs, strengthening stakeholder engagement and social responsibility efforts.
